Providence Medical Lab passes certification inspection with flying colors

Dayton, Ohio — The Providence Medical Laboratory, located in Dayton, recently passed all phases of its CLIA certification inspection, earning a 96 percent rating out of a possible 100 percent. COLA, an internationally recognized clinical laboratory accreditation organization, conducted the inspection on June 29, 2011.

In passing COLA's rigorous inspection, Providence Medical Laboratory is certified as meeting all the compliance requirements of the new Clinical Laboratory Improvement Amendments (CLIA), the United States federal regulatory standards that apply to all clinical laboratory testing. According to the Lab's manager, Krucita Caesar, "COLA's accreditation approach gives us the tools we need to maintain our practices at the highest level of performance, and our recent inspection results confirm our professional standing."

Providence Medical Laboratory is an independent lab offering comprehensive diagnostic testing in the areas of clinical chemistry, coagulation, hematology, immunoassay serology, urinalysis, ABO/Rh and antibody screening. It is part of Providence Health Partners, LLC and the Providence Medical Group. For more information, please contact Krucita Caesar at (937) 297-8999; email ccaesar@provmedgroup.com.

Providence Medical Group is the largest medical practice group in greater Dayton solely owned and operated by the member physicians, and is part of Providence Health Partners, LLC. Currently, Providence maintains twenty-two primary care practices, as well as specialty practices in obstetrics and gynecology, general surgery, pediatrics, podiatry, urogynecology, pulmonary medicine and sleep disorders. The Providence Diabetes Center, Providence After Hours Care, The Providence Health Partners Clinical Research Center, Enduring Youth Skin & Laser Center and The Providence Medical Laboratory are also parts of Providence Health Partners.
