

Now Recruiting for a Research Study in Patients with Sudden-Onset Back Pain

STAR STUDY is currently seeking volunteers to participate in a clinical research study evaluating a **new investigational (non-opiate) drug treatment** for patients suffering from **sudden onset of back pain** due to or associated with muscle spasms.

You may be eligible if you:

- Are between 18-65 years old
- Are able to walk
- Have sudden-onset back pain not caused by a long-term (chronic) condition
- Are willing to discontinue all other non-study provided medications or treatments for pain/muscle spasm
- Are willing and able to comply with scheduled visits and study procedures over a 4-week period

Participants will be compensated for their participation and time in the study.
