

# Blood pressure no longer responding to medication?

Learn about a potential therapy for people with treatment-resistant hypertension in the *Brightn* study.

## Key qualification requirements:

- You are 18 years of age or older with hypertension
- You are taking hypertension medications on a regular basis
  - **Note:** You may have to adjust the types of medications you are taking to meet study requirements
- You have a blood pressure of 130/80 or greater but less than 180/110
- You do not work night shifts
